

Walk 1: Potters Fen and Water Meadows - 3 miles, allow 1¼ hours

Before starting this walk, please read the general leaflet

1 Leave the town centre by passing the cinema on the right, to walk down High Street (under the Dereham sign). Pass the library on your left, and take the right fork along Baxter Row. Pass the *Royal Standard* and just beyond a block of flats set back behind a lawn, turn right down a short street closed to traffic by bollards: this is **Footpath 16**. Turn left on to Littlefields (which forms **Footpath 12**) and walk to where the road (now Gilpin's Ride) swings round to the right. Here, continue ahead along the footpath on the left - this is still Footpath 12.

2 Continue ahead with the wall on your left and the fence of CENOR on your right, to cross Moorgate Road, then bear left to join Route 13 of the National Cycle Network, which shares Footpath 12. The path continues past allotments and a play area, to go under the A47, emerging on the other side as **Footpath 12a**. The path continues ahead, crossing first Middlemarch Road and then Tipton Close, to come out on to Farmway. The route here is on the road again for a short way, so turn left along Farmway, then right on to Old Hall Road. After a few yards, turn left between the houses, but then, just before the stream, turn right onto the green space, and follow it back to, then continue along, Old Hall Road. *Footpath 12a itself runs through to Shipdham Road.*

3 At the end of the road, turn left across the stream and go on until you reach Chapel Lane on the left: take the footpath opposite, and follow this across Lilac Close. Then turn right to cross the stream, and left to follow its course through *Potters Fen*. There are a number of informal paths in this area, but stay on the one next to the stream until it meets **Footpath 14a**. Ahead of you is *Scarning Fen*.

4 Turn right and soon cross the A47 slightly to the right. **!!! Take care, traffic can move very quickly on this road.** Once across the road, the path

(now **Footpath 14**) used to go more or less ahead, but has become overgrown, so follow the path on the ground round to the left, then back right to meet the end of Waples Way. The path follows the roads here - along Waples Way, then down the second left (Johnson Close). At the end, bear right to follow the path across the track bed (now built over) of the former *Lynn and Dereham Railway* line.

5 Go to the left of the school grounds. *The surfaced path which runs to the right of the school grounds is the line of Footpath 13, which follows Lineside, then via a dog's leg footpath past the school, to reach Gilpin's Ride and ultimately join Footpath 12.* Here, there are 2 choices. (1) For the longest but most interesting route, turn left and left again along an informal path. The path winds its way to reach the stream; turn right to follow the stream. Turn left across the bridge, then right just before the houses and follow the path until it meets Ted Ellis Way.

Turn right and walk up to St Withburga Lane to join route 2 by *Bishop Bonner's Cottage*. (2a) As (1) but after turning away from the fence, turn right and follow the path until it meets a tarmac path, where you should turn right, then shortly left along the track to the road. (2b) Go ahead along **Footpath 14**, staying next to the fence until it meets a track opposite Sardis Way; turn left and follow this unsurfaced track, known as Rolling Pin Lane, until it joins the road. (2a and 2b) *The road to your right is Littlefields, while ahead is Footpath 15 (Wakes Lane) which runs through to High Street.* Turn left

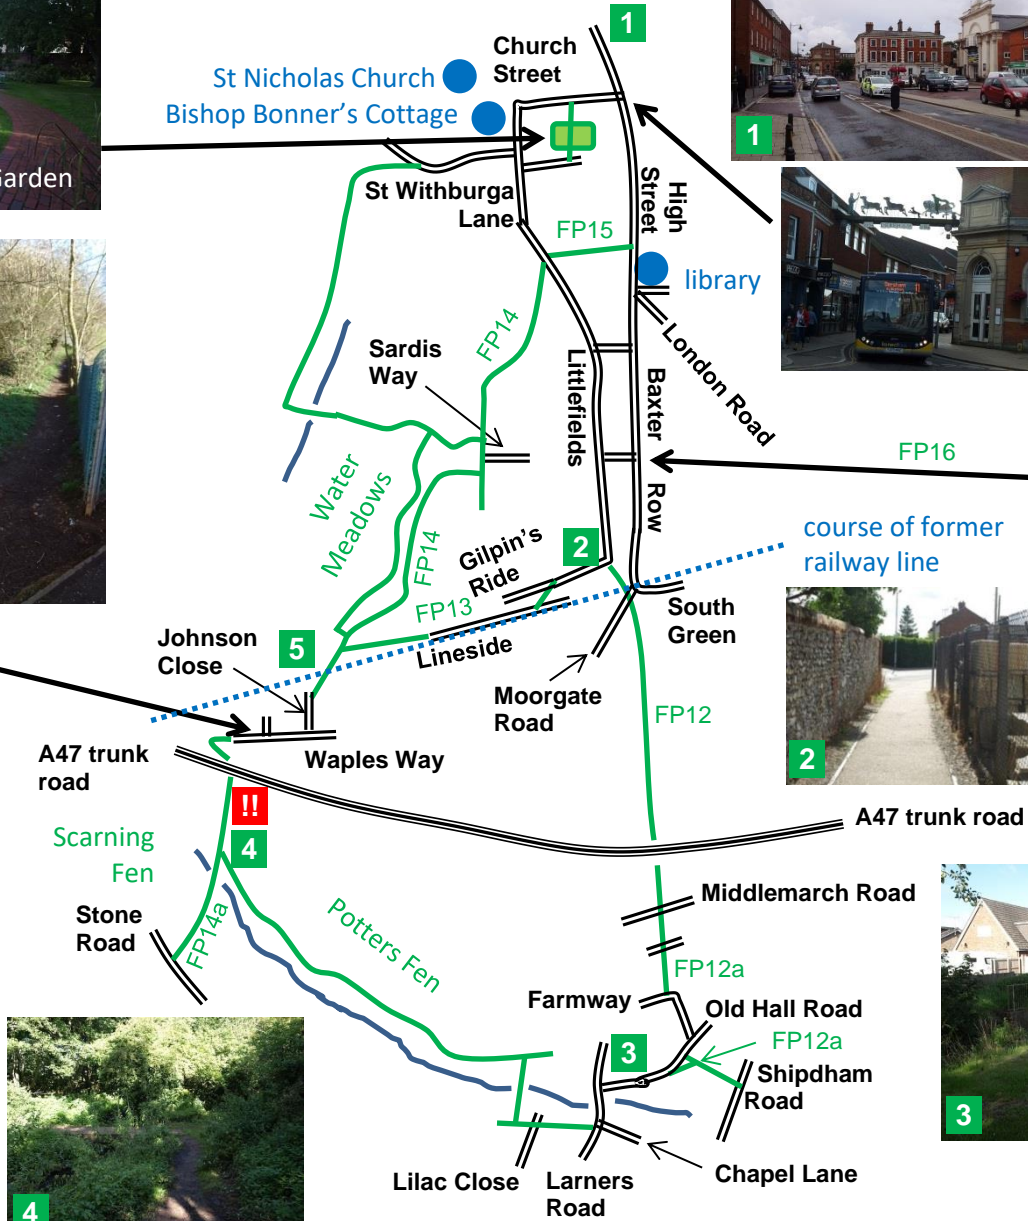

along St Withburga Lane, to pass first *Bishop Bonner's Cottage*, then *St Nicholas' Church*. Go up Church Street to get back to the town centre. *You can also turn right opposite the school to go past Meeting Point, then left through Queen Mother's Garden to reach Church Street.*

KEY

- direction points 1
- road
- path or track
- !! additional care needed
